## = EVE ELECTRONIC SYSTEMS HARDWARE ==

### EVE SP-1 Serial / Parallel Interface Unit \$149.00

Opens the ADAM to the outside world! The SP-1 includes an RS-232C Serial channel, and a (Centronics) Parallel printer channel. The SP-1 allows the use of hundreds of different printers, both high speed dot matrix, and letter quality. With the SP-1 you can now use standard modems, and direct connect to other computer systems. The SP-1 comes with software for use with SmartBasic, and CP/M. The SmartBasic programs allow the selective output to either the serial port, the parallel port, or the ADAM printer. A program is also provided to allow 'draft' printout of a Smartwriter file to either the serial or parallel port. The CP/M programs allow the 'IOBYTE' in CP/M to be set for the desired output.

**CABLES NOT INCLUDED \*\*\* SEE CPC-1 & SER-1 \*\*\***

### EVE SP-1P Parallel Interface Unit \$99.95

Parallel only version of the SP-1. Allows use of a parallel printer with the ADAM system. Printout direct from SmartWriter/Smart Basic

### EVE PS-1A Heavy Duty Power Supply \$89.95

Heavy duty version of our PS-1. It is intended to be used in applications where the DDP is used frequently, or 2 DDPs are used. The PS-1 is adequate for most applications, but we've added the PS-1A for those who need the extra capacity.

### EVE SS-CC Speech synthesizer clock cal. \$129.95

Now you can give ADAM a 'VOICE'. The EVE speech unit may be used with your programs to add capabilities to your ADAM that are only limited by your imagination! Also on this interface unit is a 'real time' clock/calendar circuit so you, and ADAM will now have access to the time and date as needed. Software included with the SS-CC: a standard phoneme library, and sample 'Talk' & 'Clock' programs. For use with both SmartBasic and CP/M.

### EVE ME-64 64k Memory Expander unit \$54.95

'Equal to Coleco 64k Expander', Plugs inside ADAM.

## EVE VD-MB 80 Column Expansion System

### Description & Options

- Usable with 80 Character Monochrome Composite Monitor & SOME High Resolution composite Color Monitors
- Four (4) Expansion slots for standard EVE products (SP-1, SP-1P, SS-CC)
- Optional Power Supply to replace ADAM printer power supply\*\*
- Composite Video Output - Software selectable so you can choose between ADAM's normal video or the 80-Column video under CP/M.
- Full emulation of the Heath H19/H89 video display terminal
- Optional VT-100 Emulation/Programmable display parameters
- 80-Column display of MOST CP/M Software (WordStar, DBase2, Super-Calc, etc.)
- 24 Line x 80-Col Display w/25th status line
- Upper & Lower Case with descenders
- Norm & Inv video display + Line/Block Graphics
- ADAM Printer Jack\*\*

## SOFTWARE INCLUDED FOR VE-MB

1. Modified CP/M system compatible with ADAM CP/M. Allow start up in either ADAM Video or 80-Column Mode through the VD-MB
  - Auto Software Switching of display mode by modifying the CP/M IOBYTE with either the STAT Program, the CONFIG Program provided with ADAM CP/M 2.2 or from your user program.
  - Modified CP/M include Driver & Initialize for the EVE SP-1/SP-1P
2. True 80-Column Word Processor/Text Editing System, which may be used for either correspondence or program editing and creation. A very sophisticated, powerful 80-Column CP/M word processing system with many advanced features such as boilerplating, mail file merging, heading and footer areas,

Variable data entry, and much more. The print module included allows the use of special print commands for EPSON/Panasonic compatible printers. Commands include <sup>superscript</sup>, <sub>subscript</sub>, **boldface**, *italic*, underline and many more. Special versions may be available for other printers.

3. File Conversion for SmartWriter/Filer/Calc Files

-A 'FILTER' program is provided to allow you to convert text files transferred from the ADAM EOS system for use by the 80-Column word processing program.

4. DIRS Program will sort and display disk files.

5. Also provided is a Z80 Basic Interpreter for CP/M. May be used to develop your own programs.

### PRICING INFO

EVE VD-MB, Full System Model	\$379.95		
Optional VT-100 Emulation	VD-MB	ADD	\$30.00

Shipping & Handling UPS Ground in U.S. Only	\$15.00
Shipping into Canada U.S. Mail only	\$25.00

All EVE ELECTRONIC SYSTEMS Hardware carries a limited 90-Day Warranty for repair/replacement. **No refunds !**

EVE MU-2 Multi-unit Adapter Cable	\$ 34.95
-----------------------------------	----------

Allows use of two EVE units at the same time, such as the SP-1 and SS-CC. Eliminates the need for constant plugging and removing of cables in ADAM's expansion port.

EVE MU-3 Multi-unit Adapter Cable	\$ 44.95
-----------------------------------	----------

Allows use of three EVE units at the same time, such as the SP-1 and SS-CC. Eliminates the need for constant plugging and removing of cables in ADAM's expansion port.

EVE CPC-1 Printer cable assy.	\$ 36.00
-------------------------------	----------

For use with the EVE SP-1 when connecting to a 'Centronics' type parallel printer.

EVE SER-1 Serial cable assy.	\$36.00
------------------------------	---------

For use with the EVE SP-1 when connecting to a Modem or most types of serial printer.

EVE VAC-1 Video / Audio cable assy.	\$ 26.00
-------------------------------------	----------

For connection from VD-MB or ADAM's Video 'DIN' jack to monitors video and audio inputs.

EVE CEA-1 Card edge adapter	\$ 34.95
-----------------------------	----------

For use with MU-2 and MU-3, allows devices such as the Coleco digital dialer unit to be connected with Eve interfaces installed.

### NOTES:

Support Software provided standard on ADAM format disks.

For Digital Data Pack, add ---> \$\$ 5.00
